Answer Clinical Questions with UpToDate®

1 Enter a word or phrase.
Be specific
for best results.

Auto-complete suggests search terms after one character.

Hover over a topic to see the full topic outline. Click on a link to go to a specific section.

Review list of topics within each specialty.

Access patient education to share with your patients.

The screenshot shows the UpToDate search interface. At the top, there's a search bar with 'anaphylaxis' entered. Below it, search results are listed under 'All Topics'. The first result is 'Anaphylaxis: Rapid recognition and treatment', which has an expanded outline showing sub-topics like 'Pharmacologic treatments', 'Immediate management', and 'Summary and recommendations'. To the right, a 'Topic Outline' is displayed, listing sections such as 'SUMMARY AND RECOMMENDATIONS', 'INTRODUCTION', 'DEFINITION AND DIAGNOSIS', 'PREVALENCE', and 'TRIGGERS AND MECHANISMS'. The interface also includes navigation tabs like 'Patient Info', 'What's New', 'PCUs', 'Calculators', and 'Drug Interactions'.

Prioritize the order in which topics appear on the search results page or filter your search over Graphics only.

Modify your user name and password or update your account information.

Accrue free CME/CE/CPD credits.

View Practice Changing Updates (PCUs).

Learn "What's New" by specialty.

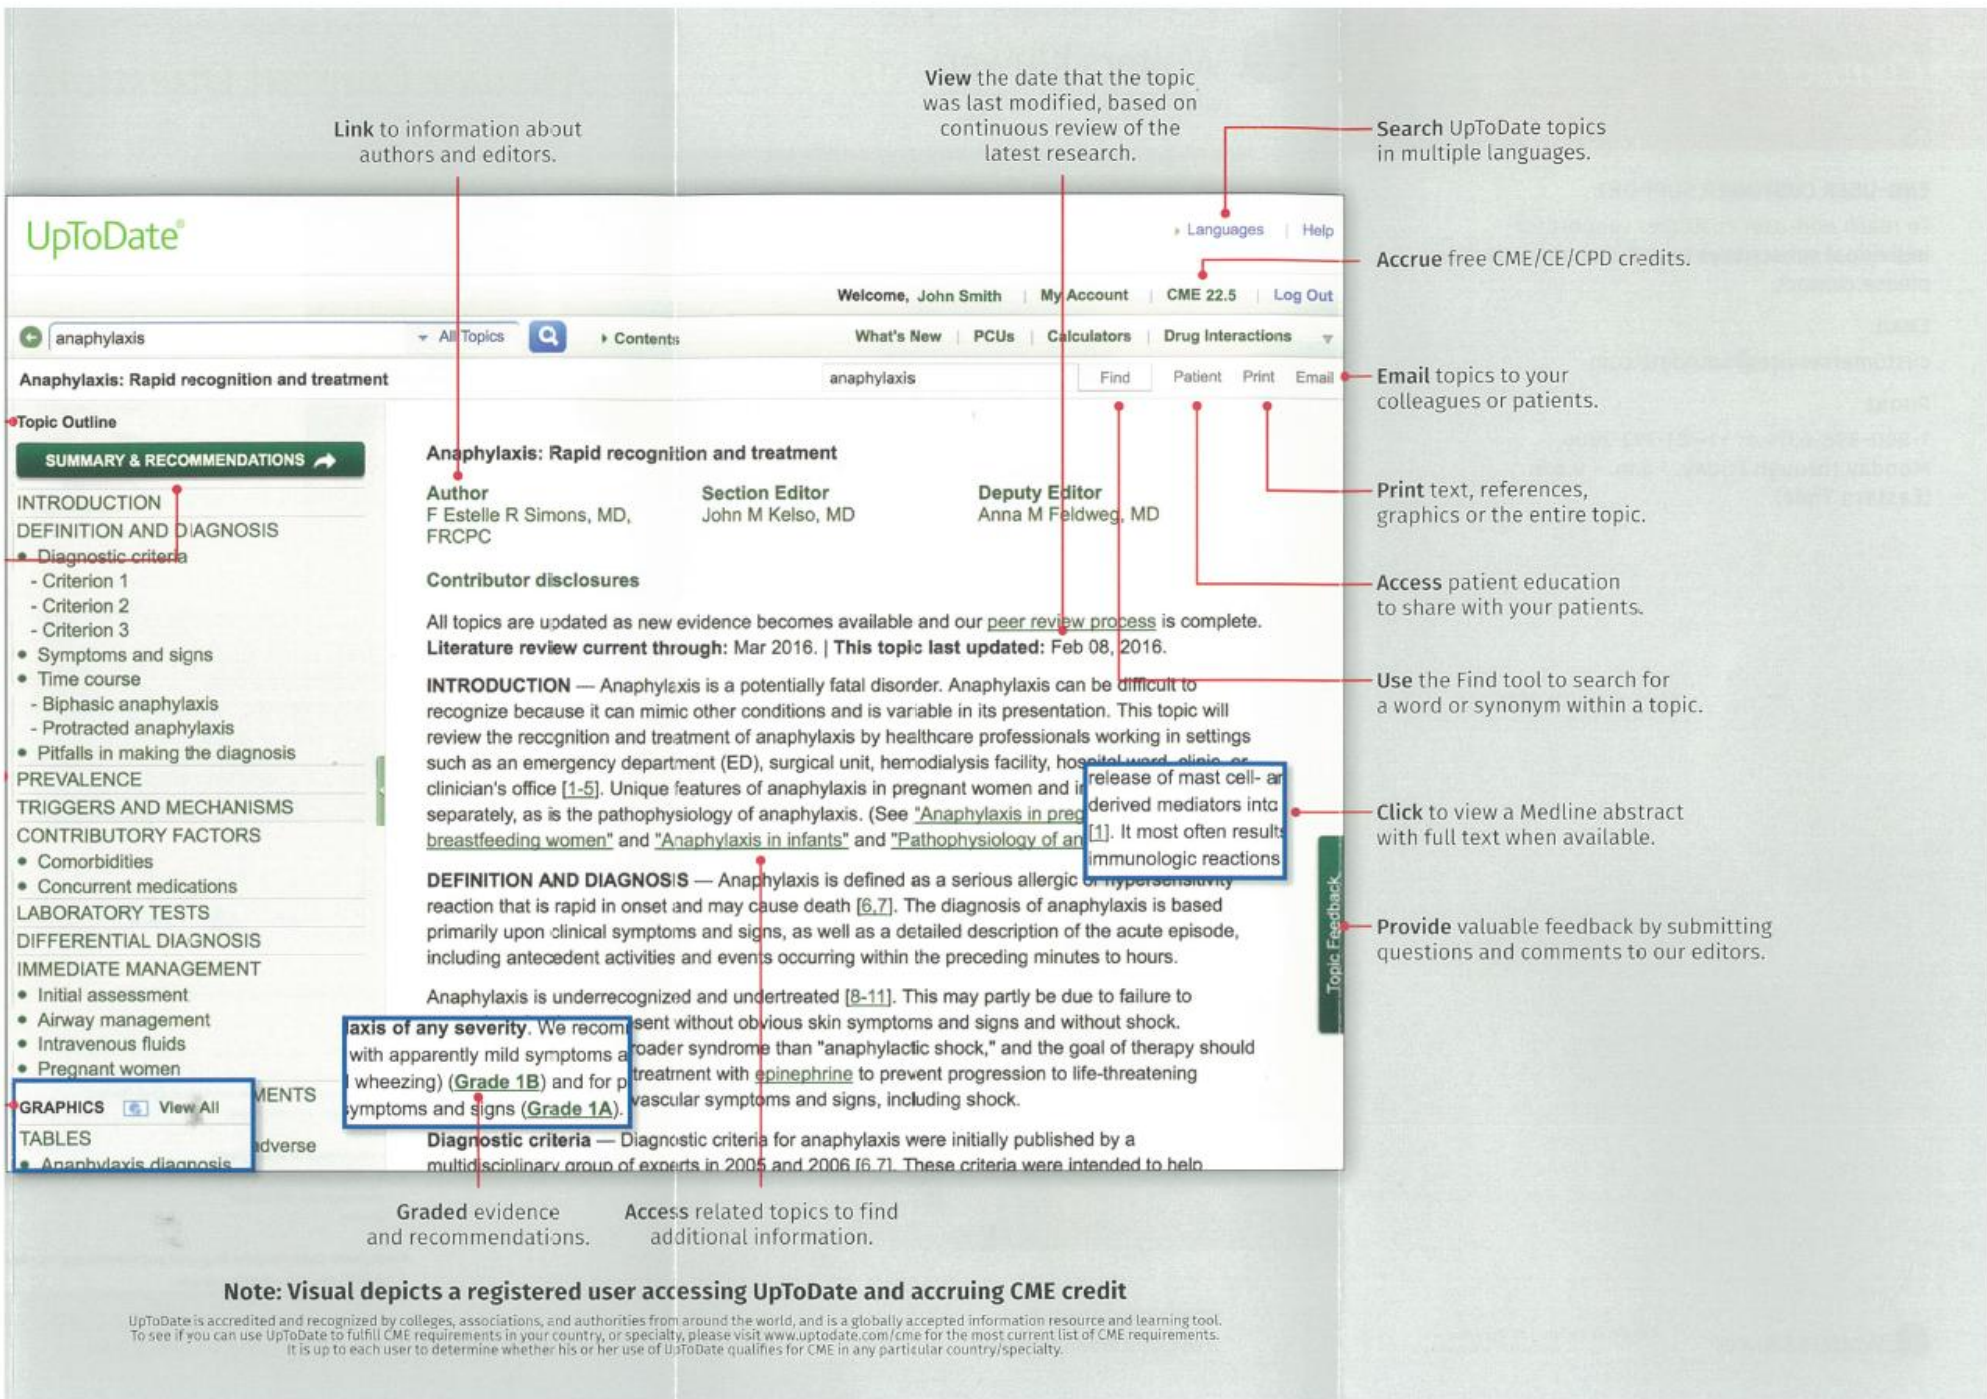

Filter your search results.

2 Review 'Search Results'. Results display the topics, sections and graphics that are most likely to answer your clinical question.

Access drug interactions program, in partnership with Lexicomp®.

Calculate many different medical measures.

Personalize your view by collapsing or expanding results or hiding the topic outline.

Link to information about authors and editors.

View the date that the topic was last modified, based on continuous review of the latest research.

Search UpToDate topics in multiple languages.

Accrue free CME/CE/CPD credits.

Email topics to your colleagues or patients.

Print text, references, graphics or the entire topic.

Access patient education to share with your patients.

Use the Find tool to search for a word or synonym within a topic.

Click to view a Medline abstract with full text when available.

Provide valuable feedback by submitting questions and comments to our editors.

axis of any severity. We recommend treatment with apparently mild symptoms (wheezing) (Grade 1B) and for patients with symptoms and signs (Grade 1A).

Graded evidence and recommendations.

Access related topics to find additional information.

Note: Visual depicts a registered user accessing UpToDate and accruing CME credit

UpToDate is accredited and recognized by colleges, associations, and authorities from around the world, and is a globally accepted information resource and learning tool. To see if you can use UpToDate to fulfill CME requirements in your country, or specialty, please visit www.uptodate.com/cme for the most current list of CME requirements. It is up to each user to determine whether his or her use of UpToDate qualifies for CME in any particular country/specialty.
